Dear Bill;

We received your letter. This is to verify that you did pick up WRRO on June 10, 1986 between 12;26 and 12:34 A.M.

WRRO's power is usually 5000 Watts, and we usually have a night pattern different from our day pattern, but due to maintenance, you picked us up at only 1000 Watts!

Enclosed is a map of our coverage. Our format is Oldies.

Yours truely,

Evelyn St. Clair
